reflect the lack of

want. It should
not be a monopoly.

FCC - MAIL ROOM

To whom it may concern,

I am a resident of the Town of Marlboro, in Monmouth County, in New Jersey, I like to voice my dissatisfaction with the rates being charged by Monmouth Cablevision. I feel that we should not be paying for channels 2-13, in our monthly charges, I also strongly feel that it is not fair to keep charging monthly, for the amount of TV. sets you have connected in the house, I think that should be a one time charge, when installed, since most of the public are requesting on line and splitting it on their own, as many splits as they please, so their for when someone requests from the Cable company to hook up several TV. sets, because they do not have the knowledge of splitting the hook up, the Cable company should charge for that connection fees, for every month, for example, I have 4 TV sets connected by the cable co. to basic cable only, and my monthly charges are \$44.+, it is not that I had to have cable, I was forced to have it when the cable came to my town, because as soon as cable was available to us, we can no longer watch TV. picture became distorted, and in order to have a good picture you had to have cable, at that time the cost was about \$18.00, and in a matter of 6-7 years, the cost has more than doubled.

I am looking for your help to put an end to these outrageous charges.

Sincerely,

B. Hassan
